🐙 Michael-c7

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front-end web applications. Looking to bring my skills to a tech company with global reach.

## PROJECTS

### Biztech

A blog website

- Implemented features allowing users to like posts and interact with comments, including the ability to create, edit, and delete comments on blog posts.
- Integrated the Unsplash API, enabling users to search for and select images to accompany their blog posts
- Implemented user authentication and authorization using Firebase, allowing users create and account and login
- Utilized Firebase Realtime Database to store and retrieve blog post data, ensuring efficient data management and real-time updates.
